Car Washer

CH-E1500 Electric Steam Vacuum Car Washer

Technical Parameters:

Voltage Rating: 220V-240 V 1ph Alternating Current

Rated Power: 4kw/h steamer (Standby no loss) + 1.3KW vacuum

Steam Pressure: 0.4-0.6 MPa (4-6bar or 58-87psi)

Highest Steam Temperature :160°C

Effective Operating Temperature Range: 60°C-100°C

Steam Saturation Capacity: 5kg/h

Continuous Work Time: Non-stop, All day long

Tank Capacity: 10 Liters

Material: Stainless Steel, Hi-Q sodium silicate for heat preservation & insulating.

| Standard Accessories | | | |
|---|-------------------------------------|--|-------------------------|
|  | Steam gun |  | Steam hose |
|  | Towel |  | Protecting glove |
|  | Washing glove |  | Brush |
|  | Vacuum hose |  | Steam vacuum floor head |
